Dear Ms. McLean

This is in response to our telephone conversation today. The USPTO mailed a Notice of Drawing Inconsistency with Specification to your office on November 1, 2004. While this Notice does contain accurate information regarding the inconsistency between the brief description of the drawings and the actual drawings, it was improperly mailed. The Notice was mailed after assignment of the patent number and did not allow enough time for applicant to make corrections prior to issue date. Therefore, the requirement to respond to this notice within 30 days is waived. As we discussed, you may choose to correct this inconsistency through the Certificate of Correction Process.

Thank you for the opportunity to speak with you today. If you have any further questions or concerns, please do not hesitate to ask.

Sincerely, *Kimberly Terrell*
